Licensed by **SCALED AGILE ACADEMY™**

Instructors

**Michelle Russo**, SAFe Program Consultant (SPC) Licensed Instructor

**Anita Canafax**, SAFe Program Consultant (SPC) Licensed Instructor

Course  
Description

The **SAFe® Product Owner QuickStart** course provides the critical skills required to work as part of an extended Product Management team. It includes modules on:

- The role of a Product Owner in the enterprise
- SAFe Scrum team ceremonies and events
- Backlog management
- Stakeholder management"

Intended  
Audience

Program/project managers, product managers, product owners, business analysts; those who will be involved in scoping and prioritizing work for agile delivery teams in an enterprise agile adoption program.

**PREREQUISITE:** this course assumes that participants have a fundamental understanding of agile core principles and Scrum framework; prior training or experience with Scrum/agile is strongly recommended.

Duration

1 day (8 hours)
