SAFe® ScrumXP

Licensed by **SCALED AGILE ACADEMY™**

Instructors

Michelle Russo, SAFe Program Consultant (SPC) Licensed Instructor

Anita Canafax, SAFe Program Consultant (SPC) Licensed Instructor

Course Description

The **SAFe® ScrumXP** course teaches Lean thinking tools, roles, processes, and the software engineering practices necessary to launch Scrum. The course is intended for new teams in an enterprise agile adoption program or can be used to re-baseline existing Scrum teams as required for scaling.

Intended Audience

Software developers, testers, Scrum Masters, Product Owners, project managers, product managers, and other practitioners involved in software development.

NO PREREQUISITES; this course is intended for new agile teams and existing agile teams requiring a common baseline for scaling.

Duration

2 days (16 hours)

Credential

Completion of this course makes participant eligible for **SAFe Practitioner (SP)** certification exam.
